DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 49, 52, and 54 are rejected under 35 U.S.C. 102(b) as being anticipated by Hamada et al (5,082,285). Hamada discloses a golf ball comprising a core made from two polybutadienes (solution blended). The first polybutadiene is BR 150L, which has a polydispersity of 2.53. The composition also includes a cross linking agent in the amounts from 15 to 60 parts. See Noguchi for polydispersity.

Allowable Subject Matter

Claims 26-33 and 41-48 allowed.

Claims 50, 51, 53 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
